

EXPEDITION ROVE: SOUNDPROOFED AND READY FOR AFRICA

The ROVE expedition team visits Noisekiller to have Tango, their Defender 110, completely soundproofed for the upcoming trip from South Africa back to England, and beyond.

Mary Hannah and Andy, from ROVE, explain why they chose Noisekiller:

"When we were looking for a soundproofing company it was important for us to find one that was reputable and made high quality soundproofing kits, specifically for our Defender 110. It was a bonus to find one that ticked both of those boxes and was family-owned. From the moment we arrived we were blown away, in every regard. The dynamic of the team, the welcoming spirit of the owners and staff, and the level of detail their team put into the fitting was incomparable. Each piece was hand cut, on-site, specifically for Tango and then installed within a few hours. When the moment of truth came to hear the difference for ourselves, we were blown away. The results spoke for themselves. It finally felt (and sounded) like a vehicle we could spend 9+ months in, day in and day out, during our expedition."

RESULTS:

TANGO WAS RECORDED
BEFORE INSTALLATION
AND AFTER BY DRIVING
ALONG THE ROADS AND
MOTORWAYS. RESULTING
IN A **MASSIVE 10.5 dB
NOISE REDUCTION.**

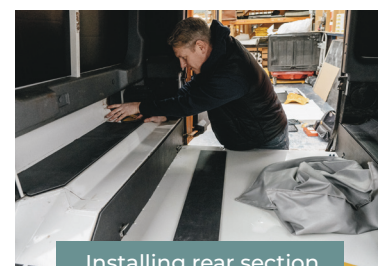

Kit ready for installation

Bonnet and engine
blanket fitted

Seat box and front
floors fitted

Installing rear section

Soundproofing
completed
